What city/community do you live in?

Anza

What do you consider important about your community?

Are there nearby areas you want to be in a district with?

Yes

Please describe which area you want to be in the indicated district.

The other rural/mountain communities which have all been split apart in the proposed redistrict. We lose our voice and we're not big enough for anyone to prioritize OUR needs which are different than urban and suburban communities.

Are there nearby areas you DO NOT want to be in a district with?

Yes

Please describe which area you do not want to be in the indicated district.

coachella valley cities, temecula, hemet, san jacinto...put us in the same district as Aguanga, Sage, Idylwild and other unincorporated rural areas.

Would you like to add an attachment (10mb max cap)

, MB

Draw one area you want included in a district.

Comments

to maintain quality of life in a rural environment and for government agencies to understand that we are NOT the same as the cities.

What city/community do you live in?

Idyllwild-Pine Cove

What do you consider important about your community?

Safety & Security

Are there nearby areas you want to be in a district with?

Yes

Please describe which area you want to be in the indicated district.

Temecula, Hemet because their topography is similar and they share concern for wildfires as we do. Also there are small towns in these area which are unincorporated as we are. The desert feels like a totally different type of area.

Are there nearby areas you DO NOT want to be in a district with?

Yes

Please describe which area you do not want to be in the indicated district.

The desert. It is very different there and their concerns are way different than ours. They are about growth and expansion and as a small mountain community we are not. There isn't much area to expand and our concerns are keeping our forest safe and our quality of life consistent with close friends and neighbors. A community that helps each other. When I lived in the desert, I never knew or saw my neighbors. Here I have many friends I've met up here.

Would you like to add an attachment (10mb max cap)

Draw one area you want included in a district.

Comments

The rural residential mountain communities of Sage, Lake Riverside, Aguanga and Anza need more not less development funds and services than the development along the urban freeway corridors. That is regardless of what district is selected. These communities need to stay together with our unique community needs that are different than those of the urban freeway corridors. We need our fair share of development funds. Services should come to us. We should not have to go off the mountain for what we need.

What city/community do you live in?

Temescal Valley

What do you consider important about your community?

Sense of Belonging

Are there nearby areas you want to be in a district with?

Yes

Please describe which area you want to be in the indicated district.

Other unincorporated areas. We need to be together to ensure services and decisions are correctly, without bias, represented. There was an effort a few years ago to annex TV into Corona. This effort was ONLY to benefit Corona to get the I-15 corridor. No

benefits to TV residents. Based on current proposed maps it appears there's a push to get us annexed. This is NOT what the residents of this area want. It appears to be a done deal! TV loves the open spaces, sense of community and partnership we enjoy with Riverside County. The redistricting maps reflect an effort to push us into an existing city. Based on the information provided a signification mapping change was not necessary, however the new maps decided to group us with northern cities verses southern cities. There are other options! NO on the current proposed redistricting maps.

Are there nearby areas you DO NOT want to be in a district with?

Yes

Please describe which area you do not want to be in the indicated district.

The city of Corona

Would you like to add an attachment (10mb max cap)

, MB

Draw one area you want included in a district.

Comments

TV needs representation on the Board of Supervisors that will provide fair and consistent attention to the unincorporated areas. Ensuring we have a voice on the board and not one with ties to a city. For example district 2 representative is on the Corona City Council. To me this is a conflict of interest. It's obvious they have an obligation and interest to promote and support the cities agenda.

Comments

I can not believe that supervisors would think that separation of East hemet from Hemet is a wise decision. What is the connection of this area to the Pass and Moreno Valley that correlates? Geographically this does not even make sense to us that reside in this Area. It puts me personally in a position of contacting one supervisor office for my business and another for my home. Additionally our Area is already considered low income with the least amount of property value growth, economic growth in your municipalities inside of the county.

see comment below. The communities of the San Jacinto Valley have a strong nexus with Southwest County communities all of which have historically been in the third district. As population has increased the ties have become stronger

Are there nearby areas you DO NOT want to be in a district with?

Yes

Please describe which area you do not want to be in the indicated district.

San Jacinto Valley communities should not be within Supervisorial District 5 (pass communities and Moreno Valley). they have aligned with the communities of Southwest Riverside County.

Would you like to add an attachment (10mb max cap)

, MB

Draw one area you want included in a district.

Comments

I am a long time resident of the San Jacinto Valley, a partner in a law firm with an office in Hemet for more than 40 + years. The communities of the San Jacinto Valley, including Cities of Hemet and San Jacinto, East Hemet and Valle Vista, should not be

split between districts and should remain in the Third Supervisorial District. The legal criteria to be considered in determining new boundaries supports maintaining all San Jacinto Valley communities within the Third District to wit: The valley is a topographical cul de sac creating communities with natural geographic continuity; integrity and compactness; all communities are contiguous to one another; the population shares common economic and social interests which are best addressed by maintaining them in a single district; moreover a number of businesses have locations in both the San Jacinto Valley and Temecula and Murrieta with little or no connection with businesses of the current fifth district. Map C should be adopted.

Comments

The San Jacinto Valley is a diverse and underserved population where 84% of 30,000 children qualify for a daily subsidized meal. We have great diversity across all ethnic and cultural lines and any division of this valley is going to create significant problems. Our community relates most to the southwest to Temecula and Murietta where most of our businesses enjoy other branches and we provide perhaps upwards of 10% of sales tax to the city of Temecula. As an underserved community with one hospital, this entire valley needs to be together in one district and the district should

be the third district as we have very little to no relationship to the 10 freeway, the Pass Corridor.

Comments

PLEASE do not move Temescal Valley to District 2 or any other district. We need to stay in District 1. We have worked too hard and too long, to be put into a different county district. Temescal Valley needs to remain intact in the First District. We are a strong, cohesive, diverse area, with its own identity; we have goals of eventually incorporating as our own city. We are happy

with our District 1 supervisor Kevin Jeffries who does an outstanding job of representing our needs. Kevin Jeffries' communication skills with his constituents are excellent and are probably not found in other districts. If TV is annexed into another district, I do not feel we would be fairly represented. Our "sense of community" is long-standing, and unique to our area. Leave Temescal Valley in District 1 where it belongs !. Nothing is broke, so don't move Temescal Valley to another district. Thank you.

Comments

We in Temescal Valley have indicated our desires for our area in the past by fighting the annexation the City of Corona attempted a few years ago. We do not feel that our interests would be taken into consideration even now if we were to be thrown into their districts. Our area is unique and Kevin

Jeffries understands our area, our needs and how we feel. If it's not broke..why are you trying to change it! Respectfully

Comments

according to the census there are almost 8000 people in thousand palms, our area has a lot of rural space but also we need more safety, because our area is considered county, our services such as police officers take 45! minutes to arrive to the home, also a large homeless population that other cities dump into our town, there should be a shelter for them. We are only

about a 10 min drive to palm desert 92211 or to cathedral city, the new hockey stadium is being built on cook street and what about traffic control there? that is also near thousand palms. I believe thousand palms should be in a new district. Most of our homes have septic tanks, and dirt roads not graded by the county, if we are part of a larger city than our town can be better served by the county.

Comments

Community is EVERYTHING. It's the reason I moved to TV. The potential for TV to be put into District 2 is disheartening. Temescal Valley and it's residents are as different from Corona as night and day, and that's who we would be lumped into! Corona is a city and TV is a community as well as a

completely different demographic. There is no benefit,at all, to split TV into another District, particularly District 2!

Comments

To have a district that fairly treats all communities within it. The cities receive more funding than the unincorporated communities, which then leaves the unincorporated areas with few ways to fund any improvements. Unfortunately it's all about the tax dollars an area generates and when the

unincorporated areas are hit with problems generated by the increase in population in other areas, that travel through their community and no planning for future infrastructure, there is no money to address these issues.

Comments

District 1 needs to remain unchanged. We are already close to the target destination and there is no reason to make modifications. Besides, all the surrounding cities are large communities so including them will not work. District 3, 4, and 5 are the ones that need to be fixed. Leave District 1 and 2 alone.

Comments

Our rural areas/trails/large lots need to be protected from over development and residents need to be better represented over special interests (campaign funders). Our area has more than enough warehouses so supervisors need to stop approving them in our rural areas where they have no concern for our health/quality of life.

Comments

It doesn't make much sense to me how the City of Riverside, Canyon Lake & Wildomar can share the same district. Also, the City of Riverside shouldn't be broken up into multiple districts. If it has to be, Riverside should be equally

distributed 50/50 between 2 districts, instead of 75/25 split it appears to be currently.

Comments

During the Annexation attempt by the city of Corona in 2013, a small group of people got together to unite this community of now 26,000 plus residents.

We want to maintain our Identity as Temescal Valley, after we fought so hard to beat back the city council. Since that failed attempt we have improved our recognition and involvement with county services, both school districts, and both water districts. We formed eight different subcommittees to make sure our tax dollars are being used for our community. Some subcommittees to address where county departments lack in visibility to our community. Public Safety, Development, Transportation, Education, Business, Communication, Beautification and Identity. Do not break our community up that we worked hard to unite. Do not give it to district two that encompasses the city of Corona which we fought to remain separate during the annexation attempt.

Temescal Valley must stay in District 1. Please do not redistrict Temescal Valley, or portions of it, into District 2. Our District 1 representatives have been phenomenal and have a deep and genuine understanding of our community. I wouldn't want to see that change. Change is good but NOT redistricting Temescal Valley into District 2. Keep Temescal Valley in District 1! Thank you.

I love the identity and sense of community that goes with living in TV. Having just moved to the area I am so impressed with the willingness of residents to serve on local community boards that represent Temescal Valley. To “blend” TV with an adjacent District forces the loss of community. To have TV redistricted out of District 1 would be a serious loss to the residents who like what makes TV special. Most importantly, the potential for lack of political representation and support for current TV residents disappears with breaking up TV. District 1 Supervisor Jeffries does pay attention to the residents. This level of attention will disappear if TV is broken up. We do not need to be part of another District or City. Don’t use politics to break up a cohesive community.

Comments

Temescal Valley is an area of 19.3 square miles with a population of over 26,000 and should remain in the First District. Because of an unsuccessful attempt in 2013 by the City of Corona to annex a portion of Temescal Valley, many residents now believe we wouldn't receive fair and impartial representation if we are moved to the Second District. The current Second

District supervisor, a Corona City Council member at that time, supported the annexation attempt. We are an involved and active community of interest with a citizenry that shares common social and economic interests to reach our ultimate goal of incorporation as a city. This effort will be almost impossible if Temescal Valley is moved either wholly or partially from the First District to the Second District.

Please keep the communities of Winchester and Homeland in the Third District. We are grateful for all the Third District Supervisors and staff have done over the past few decades to help our tiny hamlet. We are especially thankful for their support in creation of the Winchester Municipal Advisory Council (which added Homeland in the wake of redistricting after the 2010 census).

Menifee. The entire Winchester Homeland MAC area should stay in the third district, and should NOT be in the same district with Menifee, who may be seeking to create a sphere of influence into the MAC's boundaries. This potential battle will need to have clear boundaries and no conflicts of interest on the part of our Supervisor. Supervisor Washington has championed our community planning, and has guided us as we formed the MAC to protect our area as we plan for cityhood. We want to continue to be represented by Chuck Washington. He knows our interests and challenges and should be in place to see the community plan come to fruition. Attached please see the draft community plan (as of March, 2020) if you are not familiar with the planning efforts to date. Thank you for your service to this very challenging redistricting task.
